HANDOVER

Watching your new home come together is such an exciting time. The OMNI Team is committed to ensuring your building experience is an enjoyable one.

Throughout the build process we will arrange for all required compliance inspections at Slab, Frame and Final Stages. Our own internal quality inspections are conducted at Slab, Frame, Fix, and Practical Completion, as well as regular onsite inspections to ensure work is being completed to the **OMNI** high quality trade standard. We also engage an independent inspection at your final handover to ensure you are happy with your new home.

OMNI Built homes are built to impress from top to bottom.

Testimonials

A few factors influenced our decision:

- Price and transparency of costs
- Level and quality of inclusions
- Speed in responding to queries and customer service

Although overall, compared to the other builders we engaged, what stood out was the responsiveness to our queries and transparency.

We never felt we were being pushed into upgrading/signing or being misled with information – e.g. the deceptive/pushy sales pitch.

H&S, Daisy Hill, April 2020

From my perspective it is as soon as we made an enquiry we were contacted by Joe and explained what happens next, the whole process has been made easy to follow and detail given to us in ‘layman’s terms’, communication and progression has been awesome.

M&D, Rochedale South, March 2020

Partner and I just moved into our home built by OMNI earlier this month, and we are very happy with the build. There was excellent communication throughout the whole process, with a consultant coming to us to discuss build plans, and admin offering prompt replies to all email inquiries. OMNI was happy to accommodate structural changes to the build plan, including removing a bedroom and a water closet, so we were able to get the exact house we wanted. Our site supervisor was also great when it came to making a few visits to the build site, even on very short notice. Overall, OMNI made the whole process much easier than we were expecting from such a big project, on top of delivering well within the expected time frame. Highly recommended.

A&A, Oxley, March 2021

We built with OMNI last year. Absolutely fantastic experience, a pleasure to deal with, and in my opinion way better value than a volume builder. In our experience, a straight-forward process, no BS/dirty sales tactics and above all a fast build delivered on time and to a first-rate standard. Do yourself a favour and at least talk to OMNI before you sign with anyone else.

M, Wynnum, April 2020

This is our dream home, we love it and we are very happy to call it home. The design of the house gives us some wonderful unique features, giving us a spacious house which feels and looks great. We were very impressed with Nicole, the Interior Designer, who worked closely with us and made our colour selection process an enjoyable one. Her color coordination was amazing. A big thank you to Gail who helped us through every stage, going above and beyond in assisting us in any way she could. We found the whole team at Omni gave us their full attention, providing some very sound advice in selecting the right block of land and ensuring we were happy with the work being carried out. We were also impressed at Joe’s demand for a high standard of workmanship, which gave us peace of mind. To Joe and his team we say Thank You for making our dream home come true. We have no hesitation in recommending Omni Built Homes.

O&Y, Cleveland, February 2020
